

## **Change in the marketing management at Pentair Jung Pumpen**

Gunnar Wippersteg succeeds Andreas Kämpf

After 18 years of successful work, Dr. Andreas Kämpf left the Steinhagen-based pump manufacturer at the end of October. With his creativity and his instinct for attention-grabbing campaigns, as well as his openness to new communication channels and technologies, he has contributed significantly to the development and success of the brand and the company. Kämpf symbolically passed the well-known U3K pump on as a baton to his successor Gunnar Wippersteg.

Gunnar Wippersteg has been working at Jung Pumpen for 12 years and, as the previous marketing team leader, is well prepared for his new role. Through close cooperation with his predecessor, Wippersteg has an excellent network of contacts with all market partners who work in the field of sewage technology for domestic and property drainage. As the new Head of Marketing Water Disposal International, he is now responsible for all marketing activities, both in Germany and abroad. 'It's a great feeling to take the marketing helm at a company that is so familiar to me. With over 20 years of experience behind me, I look forward to setting new impulses together with this strong team,' says Wippersteg.

We would like to thank Dr. Andreas Kämpf for his outstanding work and wish him all the best for the future. At the same time, we are very much looking forward to working with Gunnar Wippersteg in his new role and are confident that he will continue the successful work and set his own impulses.
