

Change in the marketing management at Pentair Jung Pumpen

Gunnar Wippersteg succeeds Andreas Kämpf

After 18 years of successful work, Dr. Andreas Kämpf left the Steinhagen-based pump manufacturer at the end of October. During this time, he has made a significant contribution to the development and success of the brand and the company. Kämpf symbolically handed over the well-known U3K pump to his successor Gunnar Wippersteg as a kind of baton. Wippersteg has been working at Jung Pumpen for 12 years as a marketing team leader and is well prepared for his new role. As the new Head of Marketing Water Disposal International, he is now responsible for all marketing activities both in Germany and abroad.

Pentair Jung Pumpen – Quality made in Germany

For 100 years Jung Pumpen has been developing and producing sewage pumps, lifting units and pumping stations for private house and property drainage as well as for large-scale projects in industry and municipalities. As a system provider for sewage disposal technology and pressure drainage, the company is one of the market leaders in Germany. Jung Pumpen is a subsidiary of Pentair plc with 11,250 employees in 26 countries.
